VII. GoCheckKids	Will have a demonstration of GoCheckKids. Maureen Maloney provided a power point presentation with equipment to do photo screenings for vision screenings for children as young as 6 month. Device is a I-Phone. Very easy to screen and easy to carry around. Pinal Gila EHS program has used this equipment and Gloria stated that if there is a concern that the company will e-mail to trouble shoot. Nice thing that it that the software updates all the time and you do not have to pay for the updates. Maureen provided pricing for the equipment and will do a demonstration if needed at the programs across the state. Have a 30 day free trail and if programs order more than one device the price is cheaper.	Maureen Maloney
