# THE AMERICAN RESCUE PLAN CHILD TAX CREDIT

## AZHSA Educational Forum

Thousands of Arizona families are at risk of losing out on Child Tax Credit payments that will start arriving monthly on July 15, if they don't take advantage of the expanded child tax credit that President Biden and supporters in Congress approved in March as part of the American Rescue Plan in response to COVID-19. While the economy may be recovering for some, for too many, a crisis remains and extra cash from the child tax credit will provide a significant boost to help Arizonans care for their families. Join us to learn about these important benefit changes and how you can help yourself and the families you serve!
