

Our Center is physically inside of the South Mountain Park. You'll come south on Central, past the light at Dobbins, and follow it as it winds in towards the mountain and takes you to the park entrance. There is an un-manned gate-house and stop sign at the entrance, and just beyond is an unmarked road to the left. Once you've turned left, you'll see us on the right – the address is 10409 S. Central. We have a smaller circular parking lot in front of the center that has limited timed parking and expansive parking a little further down the road with arrows pointing you up a short sidewalk path to the Center.
